Critsila™

Adrenatime™

Injection

Adrenaline 0.1% w/v

Rapid Hemodynamic Support
Increases heart rate, cardiac output and blood pressure.

Effective Vasoconstriction
Reduces peripheral vascular resistance and improves tissue perfusion.

Bronchodilation
Relieves bronchospasm and improves airflow in emergency conditions.

Emergency Use
Essential in anaphylaxis, cardiac arrest and severe hypotension.

Safe & Reliable
High purity and consistent quality for critical care.

INDICATIONS

Anaphylaxis
(Severe Allergic Reactions)

Cardiac Arrest
(Life Support)

Severe Hypotension
(Shock)
