Critsila™

# Amilinc S 125

Injection

Ampicillin 250mg + Sulbactam 125mg

### Broad Spectrum Coverage

Combines ampicillin & sulbactam for effective action against a wide range of bacteria

### Effective Against Resistant Strains

Sulbactam inhibits β-lactamase enzymes, restoring activity against resistant bacteria

### Synergistic Anti-bacterial Action

Dual mechanism ensures enhanced bactericidal effect and optimal therapeutic outcomes

### Reliable & Safe Therapy

Well-tolerated formulation for serious infections with a strong safety profile

### Supports Faster Recovery

Helps achieve clinical cure, reduce recurrence and improve patient compliance

## INDICATIONS

Respiratory Tract Infections

Urinary Tract Infections

Skin & Soft Tissue Infections

Intra-abdominal Infections

Bone & Joint Infections

Septicemia & Bacteremia
