Skinticals™

Clofamine 100

Capsules

Clofazimine I.P. 100mg

Broad Spectrum Antimicrobial

Clofazimine is effective against a wide range of Gram-positive and acid-fast bacterial infections.

Effective Against Mycobacterial Infections

Clinically proven efficacy in leprosy and non-tubercular mycobacterial infections.

Inhibits Bacterial Growth

Interferes with bacterial DNA replication and RNA synthesis, inhibiting growth and proliferation.

Anti-inflammatory & Immunomodulatory

Reduces inflammation and modulates immune response for better outcomes.

Well Absorbed & Long Acting

Excellent oral absorption with prolonged tissue retention for sustained action.

Safe & Well Tolerated

Generally well tolerated with minimal side effects at therapeutic doses.

Indications

- Leprosy (Hansen's Disease)
- Non-Tubercular Mycobacterial Infections
- Chronic Skin Infections
- Lymphadenitis (Related Infections)
- Osteomyelitis (Chronic)
