Critsila™

Clophide 500 Injection

Cyclophosphamide Injection IP 500mg

Key Benefits

Potent Anticancer Activity

Cyclophosphamide is a trusted alkylating agent effective against a wide range of cancers.

Effective Cell Kill

Works by cross-linking DNA strands, inhibiting cell division and causing cancer cell death.

Broad Spectrum Use

Used in the treatment of lymphomas, leukemia, breast cancer, ovarian cancer and solid tumors.

Supports Combination Therapy

Enhances the efficacy of cancer treatment when used in combination with other chemotherapeutic agents.

Clinically Trusted

Extensively studied with proven efficacy and safety in oncology practice worldwide.

Composition :-

Cyclophosphamide	I.P.	500mg.

Indications

Lymphoma | Leukemia | Breast Cancer | Ovarian Cancer | Solid Tumors
