Critsila™

Cortslide - 200

Injections

Hydrocortisone I. P 200mg

Potent Anti-inflammatory Action

Hydrocortisone is a powerful glucocorticoid that reduces inflammation by suppressing multiple inflammatory pathways.[1]

Effective in Allergic & Autoimmune Disorders

Provides rapid relief in allergic reactions, asthma, dermatitis, and other autoimmune conditions.[2]

Adjuvant in Shock & Acute Conditions

Essential in management of anaphylaxis, septic shock, and acute adrenal insufficiency.[3]

Fast Onset & High Bioavailability

Sodium succinate formulation ensures rapid onset of action and better solubility for IV/IM use.[4]

Trusted Corticosteroid Therapy

A well-established corticosteroid with proven efficacy and safety in clinical practice for decades.[5]

Indications

Severe Allergic Reactions	Bronchial Asthma	Rheumatoid Arthritis	Dermatitis & Skin Disorders	Adrenal Insufficiency	Shock & Acute Conditions
