Cafoli™
LIFECARE

Cyclonip 100
Capsules

Cyclosporine Capsules IP 100 mg

Powerful Immunosuppression
Effectively suppresses the immune system to prevent organ transplant rejection.

Prevents Organ Rejection
Helps in improving graft survival in kidney, liver, heart, and other transplants.

Targeted Immune Modulation
Specifically inhibits T-cell activation for better transplant outcomes.

Long-Term Protection
Ensures long-lasting immunosuppression with a well-established safety profile.

Proven & Trusted Therapy
A gold standard in transplantation medicine with decades of clinical use.

INDICATIONS

- **Kidney Transplant Rejection**
- **Liver Transplant Rejection**
- **Heart Transplant Rejection**
