Critsila™

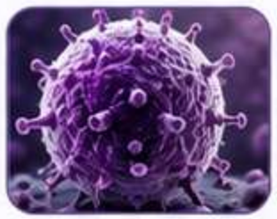

Docenip 20

Injection

Docetaxel Injection IP 20mg

Premium Taxane Class Antineoplastic Agent

Antineoplastic Activity

Docetaxel is a taxane that inhibits cancer cell growth and proliferation by stabilizing microtubules.

Effective Against Solid Tumors

Indicated in breast, non-small cell lung, prostate, gastric and head & neck cancers.

Intravenous Infusion Use

Designed for IV infusion after proper dilution for optimal therapeutic effect.

Microtubule Stabilization

Stabilizes microtubules and inhibits depolymerization, leading to cell cycle arrest and apoptosis.

Well Established Efficacy

Proven clinical efficacy with a well-established safety profile.

Composition :-

Docetaxel Anhydrous	I.P	20mg.
Polysorbate	I.P	540mg.
Dehydrate Alcohol	I.P	395mg.

Indications :-

Breast Cancer	Non-Small Cell Lung Cancer	Prostate Cancer	Gastric Cancer	Head & Neck Cancer
