OPTISHELL™
EYECARE

Dorshell-T

Eye Drops

Dorzolamide HCL & Timolol Maleate

Effective IOP Reduction
Helps lower intraocular pressure and protects optic nerve.

Dual Mechanism Action
Dorzolamide and Timolol work together for better control of IOP.

Improves Visual Field
Helps maintain vision and slows disease progression.

Once-Daily Convenience
Designed for convenient once-daily administration.

Proven ARB Therapy
Dorshell-T is a trusted combination for long-term glaucoma management.

INDICATIONS

- Open-Angle Glaucoma
- Ocular Hypertension
- High Intraocular Pressure
