Critsila™

# Dozyfyle™

**Injection**

**Doxofylline 10mg**

### Bronchodilation Effect
Relaxes bronchial smooth muscles for easier breathing.

### Improves Airflow
Helps reduce airway resistance and increases lung ventilation.

### Enhances Respiratory Function
Supports better oxygen exchange and lung performance.

### Fast Acting Relief
Provides quick and effective relief from bronchospasm.

### Well Tolerated
Gentle on the body with a favorable safety profile.

## INDICATIONS

- **Bronchial Asthma**
- **Chronic Obstructive Pulmonary Disease (COPD)**
- **Other Respiratory Disorders**
