XUROGEN™

Epalnest M

Tablets

Epalrestat 150mg + Methylcobalamin 1500mcg

Supports Nerve Regeneration

Methylcobalamin promotes myelin synthesis and supports repair of damaged nerves.

Reduces Oxidative Stress

Epalrestat inhibits aldose reductase enzyme to reduce oxidative stress and nerve damage.

Relieves Neuropathic Symptoms

Helps reduce numbness, tingling, burning sensation and nerve pain.

Improves Nerve Function

Enhances nerve conduction speed and improves functional recovery.

Well Tolerated & Safe

Excellent safety profile with minimal adverse effects for long-term use.

INDICATIONS

Diabetic Neuropathy

Peripheral Neuropathy

Neuralgia

Radiculopathy

Vitamin B12 Deficiency

Age-related Nerve Degeneration
