Flucyton 500
Tablets

Flucytosine Tablets IP 500mg

Potent Antifungal Activity
Flucytosine is an effective antifungal agent used against a wide range of fungal infections.[1]

Effective in Systemic Mycoses
Indicated for serious systemic fungal infections including cryptococcal meningitis and other deep-seated mycoses.[2]

Used in Combination Therapy
Often used in combination with amphotericin B to enhance efficacy and reduce the risk of resistance.[3]

Well Absorbed & Distributed
Good oral absorption and excellent penetration into body fluids and tissues for better therapeutic outcomes.[4]

Trusted in Clinical Practice
Recommended by healthcare professionals worldwide for the effective management of fungal infections.[5]

Composition :-
Flucytosine I.P 500mg.

Indications
- Cryptococcal Meningitis
- Systemic Fungal Infections
- Candidiasis
- Dermatophytosis
- Combination Antifungal Therapy
