Skinticals™

Fucoziff

Cream

Fluconazole 0.5% w/w Cream

Broad Spectrum Antifungal

Fluconazole effectively treats a wide range of superficial fungal infections.

Inhibits Fungal Growth

Works by blocking the synthesis of ergosterol, disrupting fungal cell membrane formation.

Penetrates Deep into Skin

Ensures targeted action at the site of infection for faster relief.

Relieves Symptoms Effectively

Reduces itching, redness, and irritation associated with fungal infections.

Smooth & Easy Application

Non-sticky cream base for better spreadability and patient comfort.

Safe & Well Tolerated

Minimal side effects with proven safety for external use.

Indications

- Tinea Pedis (Athlete's Foot)
- Tinea Corporis (Ringworm)
- Tinea Cruris (Jock Itch)
- Pityriasis Versicolor
