Cadray™ Lifecare

Furotide S

Tablets

Furosemide 20mg. & Spironolactone 50mg. Tablets

Key Benefits

Effective Diuretic Combination

Furosemide & Spironolactone work synergistically to enhance diuresis and promote fluid balance.

Supports Edema Management

Helps reduce edema associated with heart failure, liver cirrhosis, nephrotic syndrome and renal disorders.

Cardio-Renal Protective

Supports cardiovascular function and helps prevent fluid overload related complications.

Maintains Electrolyte Balance

Spironolactone helps conserve potassium and supports electrolyte homeostasis during diuretic therapy.

Well Tolerated & Reliable

Clinically proven combination with a favorable safety profile for long-term management.

Composition :-

Furosemide	**I.P**	**20mg.**
Spironolactone	**I.P**	**50mg.**

Indications

Edema | Hypertension | Heart Failure | Liver Cirrhosis | Nephrotic Syndrome
