Skinticals™

Helozine 12.5 Tablets

Hydroxyzine Hydrochloride I.P. 12.5mg

Potent Antihistamine

Hydroxyzine HCl is a first-generation antihistamine that effectively blocks H1 receptors to relieve allergic symptoms.[1]

Relieves Allergic Symptoms

Provides relief from sneezing, runny nose, itching, watery eyes, and other allergic manifestations.[2]

Sedative & Anxiolytic Effects

Exerts a calming effect that helps in anxiety, tension, and promotes better sleep.[3]

Quick Onset of Action

Begins working within 15–30 minutes and provides long-lasting relief.[4]

Well Tolerated

Generally safe and well tolerated when used as directed.[5]

Indications

Allergic Rhinitis | Urticaria | Pruritus (Itching) | Anxiety & Tension | Pre & Post Operative Sedation | Insomnia
