Critsila™

Ifoside
injection

Ifosfamide Injection IP 1gm

Potent Anticancer Activity
Ifosfamide is an alkylating agent with broad-spectrum activity against a wide range of solid tumors.[1]

Effective in Combination Therapy
Enhances therapeutic outcomes when used in combination with other chemotherapeutic agents.[2]

For Intravenous Use Only
Designed for controlled intravenous administration to ensure optimal efficacy and safety.[3]

Includes Mesna for Protection
Supplied with Mesna to help reduce the risk of ifosfamide-induced hemorrhagic cystitis.[4]

Trusted in Oncology Care
Widely used and recommended by oncologists worldwide for effective cancer treatment.[5]

Composition :-

Ifosfamide I.P 1gm.

Indications

Soft Tissue Sarcoma	Ovarian Cancer	Lung Cancer	Neuroblastoma	Ewing's Sarcoma	Bladder Cancer	Bone Sarcoma
