Skinticals™

Italom TRB 100
Tablets

Itraconazole 100mg + Terbinafine HCl 250mg

Broad Spectrum Antifungal Action
Combines the power of Itraconazole and Terbinafine for superior antifungal activity. [1]

Effective Against Resistant Fungi
Active against a wide range of dermatophytes, yeasts & molds. [2]

Dual Mechanism of Action
Itraconazole inhibits fungal cell membrane synthesis & Terbinafine inhibits ergosterol production. [3]

Targeted & Long-Lasting Relief
Penetrates deep into the skin, nail & scalp for effective and lasting results. [4]

Safe & Well Tolerated
Well tolerated with a proven safety profile for better patient compliance. [5]

Composition :-

Itraconazole	**IP**	**100mg.**
Terbinafine	**IP**	**250mg.**

Indications

Tinea Capitis | Tinea Corporis (Ringworm) | Tinea Cruris (Jock Itch) | Onychomycosis (Nail Fungal Infection) | Pityriasis Versicolor | Seborrheic Dermatitis | Cutaneous Candidiasis
