Critsila™

Jetmino™ 5%

Injection

Amino Acid (5% w/v) & Sorbitol (5% w/v)

Supports Liver Function

Provides essential amino acids and sorbitol to support hepatic metabolism and function.

Replenishes Essential Amino Acids

Helps correct amino acid imbalance and supports protein synthesis.

Enhances Fluid & Electrolyte Balance

Sorbitol helps maintain osmotic balance and supports hydration.

Improves Metabolic Efficiency

Supports overall metabolic processes and reduces catabolic stress.

Convenient Parenteral Administration

Ensures quick absorption and effective nutritional support.

INDICATIONS

- Liver Disorders
- Parenteral Nutrition Support
- Metaborlic Imbalance
