Critsila™

Jetmino 250
Injection

Amino Acids (7%w/v) Injection

Complete Amino Acid Support
Provides essential and non-essential amino acids to support protein synthesis and overall metabolism.

Supports Recovery & Healing
Promotes tissue repair, wound healing and recovery in catabolic conditions and post-surgery.

Improves Nutritional Status
Helps in maintaining nitrogen balance and prevents negative protein balance in malnourished patients.

For IV Infusion Use
Specially formulated for safe and effective intravenous administration in clinical settings.

Enhances Clinical Outcomes
Aids in faster recovery, better immune function and improved patient well-being.

Indications :

Malnutrition | Pre & Post Surgery | Trauma & Burns | Infections | Critical Illness

Composition :

Amino Acid I.P 7%w/v.

250 ml. Injection
