Letomore 5
Tablets

Letomore 5
Tablets
Letrozole Tablets IP 5 mg

Inhibits Aromatase Activity
Reduces estrogen production, helping to slow the growth of hormone-sensitive breast cancer cells.

Slows Cancer Progression
Helps prevent the growth and spread of estrogen-dependent breast cancer.

Well Tolerated
Offers effective treatment with a manageable side effect profile.

Improves Quality of Life
Helps maintain hormonal balance and overall well-being.

Effective Long-Term Therapy
Supports better outcomes in hormone receptor-positive breast cancer.

INDICATIONS

- Hormone Receptor-Positive Breast Cancer
- Adjuvant Treatment in Early Breast Cancer
- Advanced or Metastatic Breast Cancer
