Cadray™ Lifecare

Lorsan-AM™

Tablets

Losartan Potassium 50mg & Amlodipine 5mg

Effective Blood Pressure Control

Helps lower elevated blood pressure with sustained antihypertensive action.

Dual Mechanism of Action

Losartan relaxes blood vessels while Amlodipine prevents narrowing for better BP control.

Supports Vascular Health

Improves blood flow and reduces peripheral vascular resistance.

Once-Daily Convenience

Designed for convenient once-daily oral administration.

Comprehensive Cardioprotection

Helps reduce cardiovascular risk and supports long-term heart health.

INDICATIONS

- Hypertension
- High Blood Pressure
- Cardiovascular Risk Management
