Cafoli™
LIFECARE

# Midotale-5
## Tablets

Midodrine Hydrochloride 5mg

### Increases Blood Pressure
Stimulates alpha-1 adrenergic receptors for vasoconstriction.

### Improves Organ Perfusion
Enhances blood flow to vital organs, reducing symptoms of hypotension.

### Reduces Orthostatic Hypotension
Minimizes postural blood pressure drops and improves stability.

### Once-Daily Convenience
Provides sustained effect for all-day support.

### Well-Tolerated
Established safety profile with controlled use.

## INDICATIONS

- Orthostatic Hypotension
- Hypotension (Various Causes)
- Neurogenic Hypotension
