Pediaking™

Moxyplant™ CV Drops

Amoxycillin & Potassium Clavulanate for Oral Suspension I.P.

Broad Spectrum Action
Effective against a wide range of bacterial infections.

Overcomes Resistance
Clavulanate inhibits beta-lactamases, restoring amoxicillin's effectiveness.

Gentle on Little Tummies
Well tolerated and safe for paediatric use.

Convenient Oral Drops
Easy to administer with sterile water for accurate dosing.

Effective Infections Control
Helps in faster recovery and better health outcomes.

INDICATIONS

- Respiratory Tract Infections
- Ear, Nose & Throat Infections
- Other Bacterial Infections
