Cadray™ Lifecare

Nebiroll-T 2.5

Tablets

Nebivolol 2.5mg + Telmisartan 40mg

Dual Action Synergy
Nebivolol controls heart rate while Telmisartan relaxes blood vessels for superior BP reduction.

Effective Blood Pressure Control
Provides consistent and long-lasting control of hypertension.

Cardiovascular Protection
Reduces risk of cardiovascular events and target organ damage.

Vascular & Endothelial Support
Nebivolol improves endothelial function and arterial compliance.

Renal Protection
Telmisartan offers proven kidney protection in hypertensive patients.

Well Tolerated
Once daily, safe, and well tolerated with minimal adverse effects.

Indicated In :

- Hypertension
- Stable Angina
- Heart Failure (Adjunct)
- Diabetic Nephropathy
- Stroke Prevention
- Cardiovascular Risk Reduction
