Critsila™

Packlin 30
Injection

Paclitaxel Injection IP 30mg

Trusted Antineoplastic Chemotherapy Agent

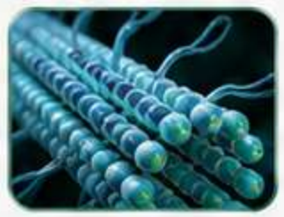

Antineoplastic Activity
Paclitaxel is an antineoplastic agent used in the treatment of various solid tumors.

Effective Against Solid Tumors
Indicated in breast, ovarian, lung, prostate, gastric and head & neck cancers.

For Intravenous Infusion
To be diluted before IV infusion for improved safety and efficacy.

Microtubule Stabilization
Stabilizes microtubules and inhibits depolymerization, leading to cell cycle arrest and apoptosis.

Well Established Efficacy
Proven clinical efficacy with a well-established safety profile.

Composition :-
