Critsila™

Composition :-

Pemetrexed I.P 100mg.

Indications

Non-Squamous Non-Small Cell Lung Cancer (NSCLC)	Malignant Pleural Mesothelioma	Combination Therapy in NSCLC	Maintenance Therapy in NSCLC

Pemdrax 100

Injection

Pemetrexed Injection I.P. 100mg

Antifolate Anticancer Agent

Pemetrexed is an antifolate that inhibits key enzymes involved in tumor cell growth.[1]

Effective Against Multiple Cancers

Indicated in NSCLC and malignant pleural mesothelioma with proven clinical efficacy.[2]

Enhances Treatment Outcomes

Improves survival and progression-free survival when used in combination chemotherapy.[3]

Sterile Lyophilized Powder

Ensures stability, purity, and reliability for safe and effective intravenous use.[4]

Trusted in Oncology Care

Widely recommended by oncologists and supported by global clinical data.[5]
