Respihub™

Phenycure-T

Tablets

Phenylephrine I.P 5mg + Triprolidine I.P 2.5mg

Effective Relief from Nasal Congestion
Phenylephrine acts as a decongestant, reducing nasal congestion and promoting easier breathing.

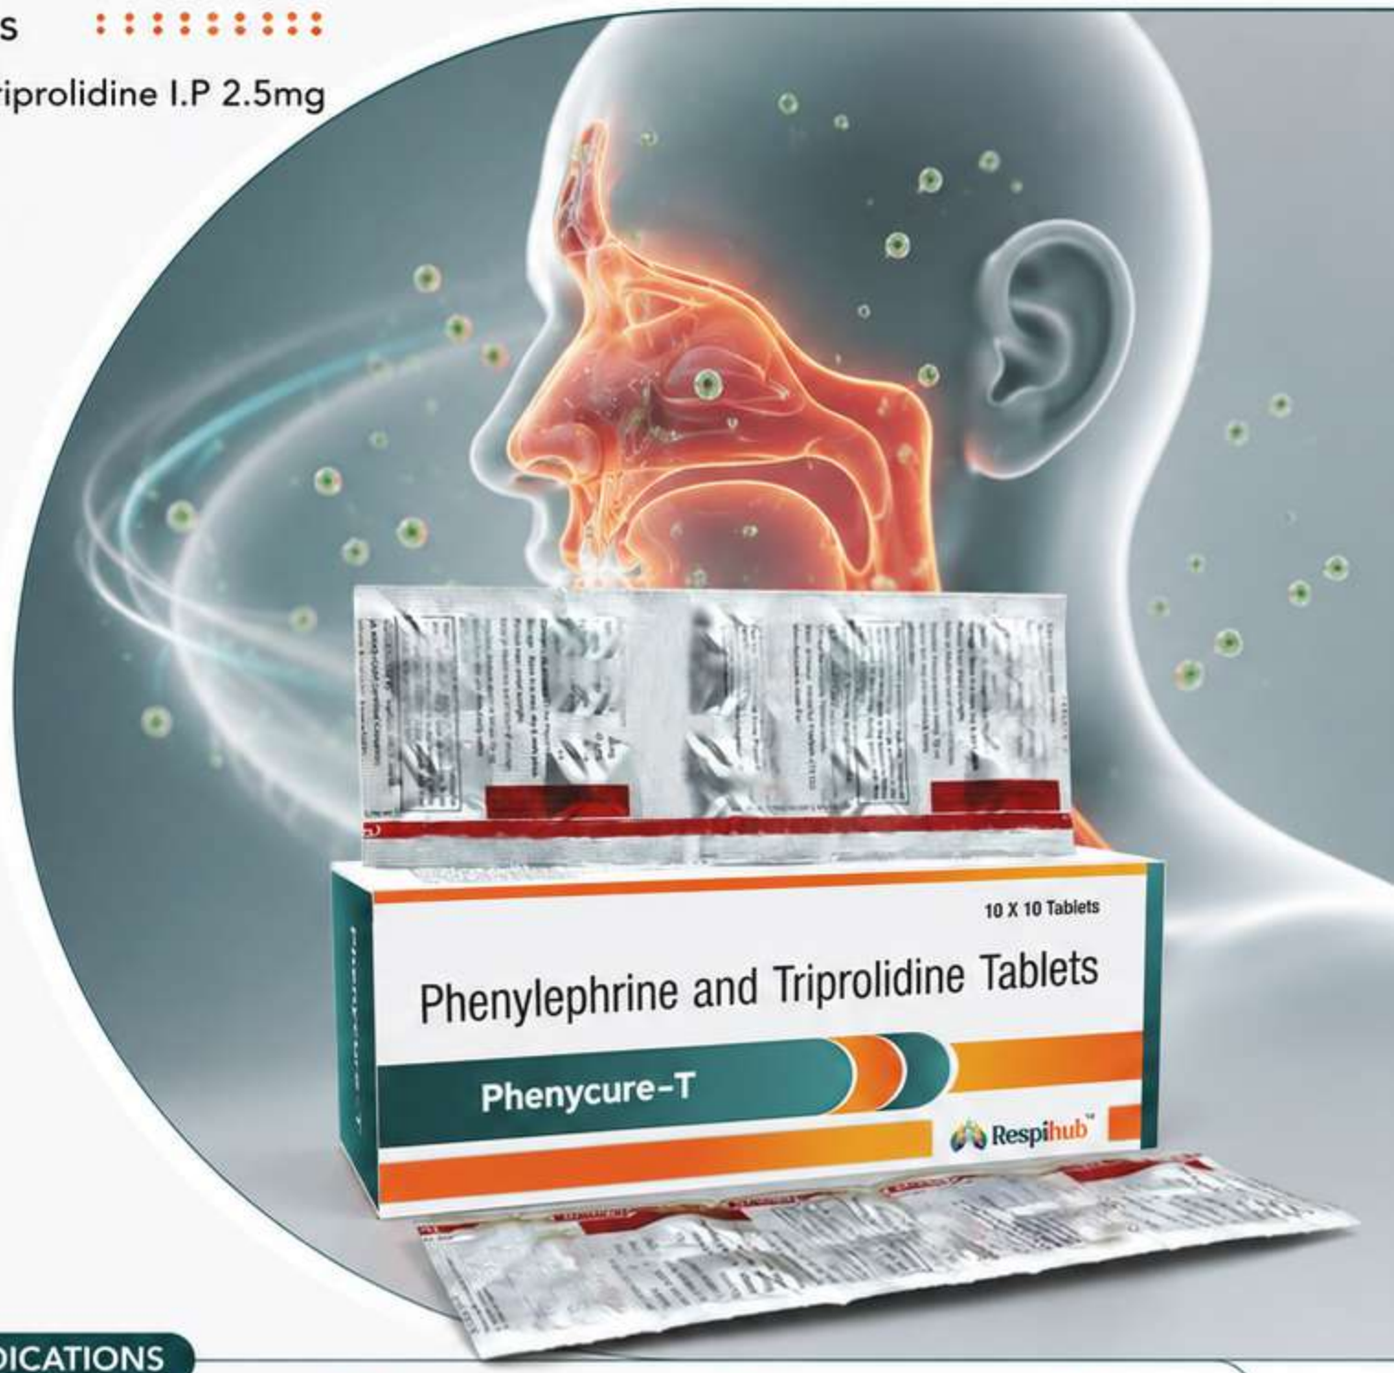

Controls Allergic Symptoms
Triprolidine provides potent antihistaminic action to relieve sneezing, runny nose, and watery eyes.

Dual Action Formula
Combined action of decongestant and antihistamine ensures comprehensive symptom relief.

Reduces Nasal Discharge
Helps reduce excessive nasal secretions and post-nasal drip.

Improves Breathing Comfort
Clears nasal passages and improves overall respiratory comfort.

Well Tolerated & Safe
Well tolerated with minimal sedation, suitable for a wide range of patients.

INDICATIONS

- Nasal Congestion
- Allergic Rhinitis
- Watery Eyes
- Runny Nose
- Post-Nasal Drip
- Sinusitis
