TinyBud™

Promezyn

Syrup

Promethazine IP 5mg/5ml

Effective Antiemetic

Promethazine works centrally to control nausea and vomiting from various causes.[1]

Antihistaminic Action

Provides relief from allergic symptoms including runny nose, sneezing, and itching.[2]

Sedative & Tranquilizing Effect

Induces sedation and promotes rest, helpful in pre-operative and allergic conditions.[3]

Well Tolerated

Generally well tolerated in children when used in recommended doses.[4]

Pediatric Friendly

Pleasant taste and easy-to-administer syrup for better compliance.[5]

Composition :-

Promethazine IP 5mg./5ml.

Indications

Nausea & Vomiting	Allergic Conditions	Pre-operative Sedation	Motion Sickness	Cough & Cold with Allergic Symptoms
