Cafoli™
LIFECARE

Ribziff™ IT

Capsules

Rabeprazole Sodium I.P. 20 mg,
Itopride Hydrochloride I.P. 150mg.

Effective Acid Control
Rabeprazole reduces gastric acid secretion for long-lasting relief.

Improves Gastric Motility
Itopride enhances gastric emptying and relieves discomfort.

Dual Action Therapy
Combines acid suppression with prokinetic action for better outcomes.

Relieves GERD Symptoms
Reduces heartburn, regurgitation and upper abdominal discomfort.

Well Tolerated
Ensures effective and safe long-term use with minimal side effects.

INDICATIONS

- **Gastric & Duodenal Ulcers**
- **GERD / Acid Reflux Disease**
- **Functional Dyspepsia & Delayed Gastric Emptying**
