Cadray™ Lifecare

Rosumore™ Gold 20/150
Capsules

Rosuvastatin 20mg + Clopidogrel 150mg

Reduces Risk of Heart Attack & Stroke
Rosuvastatin lowers cholesterol and stabilizes plaque, while Clopidogrel prevents platelet aggregation.

Prevents Blood Clot Formation
Clopidogrel inhibits platelet activity, reducing the risk of clot-related events.

Lowers Bad Cholesterol (LDL)
Rosuvastatin effectively reduces LDL and increases good cholesterol (HDL).

Improves Blood Circulation
Supports healthy blood flow and cardiovascular function.

Dual Protection
Combines statin and antiplatelet therapy for comprehensive heart care.

INDICATIONS

- **Coronary Artery Disease (CAD)**
- **Stroke Prevention**
- **Dyslipidemia (High Cholesterol)**
