Cafoli™
LIFECARE

Soldevir V
Tablets

Velpatasvir 100 mg & Sofosbuvir 400 mg

Pan-Genotypic Efficacy
Effective against all major HCV genotypes (1–6) with high sustained virologic response.[1]

Dual-Action Antiviral Therapy
Combines NS5A inhibitor (Velpatasvir) and NS5B nucleotide inhibitor (Sofosbuvir) for potent viral suppression.[2]

High Cure Rates
Achieves high SVR12 rates in treatment-naïve and treatment-experienced patients.[1,3]

Well Tolerated
Favorable safety profile with minimal adverse effects.[3]

Once Daily Convenience
Simple once-daily dosing improves adherence and patient outcomes.[2]

Indications

Chronic Hepatitis C Genotype 1–6	Treatment-Naïve Patients	Treatment-Experienced Patients	Compensated Liver Disease	Pre & Post Liver Transplant Patients
