Toldot 2

Tolterodine 2mg

EFFECTIVE OVERACTIVE BLADDER CONTROL

Relieves urgency, frequency, and urge incontinence for improved bladder management.

REDUCES BLADDER SPASMS

Tolterodine helps relax bladder muscles and reduces involuntary contractions.

IMPROVES QUALITY OF LIFE

Helps patients regain confidence with better bladder control and comfort in daily activities.

WELL TOLERATED

Designed for better tolerability with fewer anticholinergic side effects at recommended doses.

TRUSTED & PRESCRIBED

A reliable choice for clinicians managing OAB symptoms effectively.

Composition :

Tolterodine	I.P.	2mg.

Indications

- Overactive Bladder (OAB)
- Urinary Frequency & Urgency
