Cafoli™
LIFECARE

Traxlink 500 ET
Tablets

Etamsylate & Tranexamic Acid Tablets

Controls Excessive Bleeding
Helps reduce bleeding by strengthening blood vessel walls and promoting clot stability.

Improves Vascular Integrity
Enhances capillary resistance and reduces capillary fragility.

Supports Normal Clotting
Promotes platelet function and fibrin formation for effective hemostasis.

Convenient Dosing
Designed for easy and effective once-daily administration.

Proven Efficacy & Safety
Trusted combination for the management of bleeding disorders.

INDICATIONS

Menorrhagia
(Heavy Menstrual Bleeding)

Post-Operative Bleeding
(Dental / Surgical Procedures)

Traumatic Bleeding
(Accidental Injuries / Trauma)
