Matrizen™

Traxlink™ ET

Tablets

Etamsylate & Tranexamic Acid

Reduces Excessive Bleeding
Decreases capillary permeability and promotes hemostasis.

Controls Menorrhagia
Helps in managing heavy menstrual bleeding effectively.

Strengthens Vascular Integrity
Stabilizes fibrin clots and reduces vessel fragility.

Improves Bleeding Control
Provides reliable support in surgical and post-operative bleeding.

Convenient Dosage
Easy to administer with better patient compliance.

INDICATIONS

- **Menorrhagia** (Heavy Menstrual Bleeding)
- **Surgical Bleeding** (Gynecological & Other)
- **Post-Operative Bleeding** (Including Dental & Trauma)
- **Bleeding Disorders** (As Adjuvant Therapy)
