Matrizen™

# Traxlink™ MF
Tablets

**Tranexamic Acid 500mg + Mefenamic Acid 250mg**

### Controls Excessive Bleeding
Tranexamic acid helps reduce excessive menstrual bleeding by inhibiting fibrinolysis.

### Relieves Pain & Inflammation
Mefenamic acid provides effective analgesic and anti-inflammatory action.

### Dual Action Formula
Combines antifibrinolytic and NSAID for better symptom control.

### Improves Quality of Life
Helps in timely relief and supports normal daily activities.

## INDICATIONS

**Menorrhagia**
(Heavy Menstrual Bleeding)

**Dysmenorrhea**
(Painful Menstruation)

**Gynecological Bleeding Disorders**
