Cadray™ Lifecare

Trelanip 100

Tablets

Trelagliptin I.P. 100mg

HIGHLY SELECTIVE DPP-4 INHIBITOR

Trelagliptin is a potent and highly selective DPP-4 inhibitor for effective glycaemic control.

EFFECTIVE GLYCAEMIC CONTROL

Significantly reduces HbA1c and fasting & postprandial blood glucose levels.

CARDIOVASCULAR SAFE

Demonstrated cardiovascular safety with neutral effect on CV risk factors.

RENAL FRIENDLY

Safe to use in patients with mild to moderate renal impairment without dose adjustment.

WELL TOLERATED

Low incidence of adverse effects and good patient compliance.

Indications

- Type 2 Diabetes Mellitus
- Inadequate Glycaemic Control on Diet & Exercise Alone
- Add-on to Metformin or Other Antidiabetic Therapies
- Patients with Renal Impairment (Mild to Moderate)
- Elderly Patients with Type 2 Diabetes
