Troxipot-300
Tablets

Troxipide Prolonged-Release Tablets 300 mg

Gastric Mucosal Protection
Forms a protective barrier over the gastric mucosa, defending against irritants and improving mucosal integrity.

Reduces Gastric Lesions
Clinically proven to reduce the size and severity of gastric ulcers and erosions.

Promotes Ulcer Healing
Supports natural healing of gastric ulcers and helps prevent recurrence.

Well Tolerated
Generally safe and well tolerated with an excellent safety profile.

Prolonged Relief
Prolonged-release formulation ensures sustained action and better patient compliance.

INDICATIONS

Gastric Ulcer | Duodenal Ulcer | Chronic Gastritis | Erosive Gastritis | Stress Ulcer Prophylaxis
