Cadray™ Lifecare

Vildaplit-M™ 850 Tablets

Vildagliptin 50mg + Metformin 850mg

Dual Action for Better Control

Combines Vildagliptin's incretin effect with Metformin's insulin-sensitizing action for superior glycemic control.[1]

Improves Glycemic Control

Effectively lowers HbA1c and fasting & postprandial blood glucose levels.[2]

Enhances Insulin Sensitivity

Metformin improves insulin sensitivity, while Vildagliptin enhances insulin secretion in a glucose-dependent manner.[3]

Well Tolerated

Low risk of hypoglycemia and generally well tolerated with a favorable safety profile.[4]

Once Daily Convenience

Simplifies treatment regimens and improves patient adherence.[5]

Indications

Type 2 Diabetes Mellitus | Poor Glycemic Control | As Add-on Therapy | Insulin Resistance | Metabolic Syndrome
